

SafetyGrip Strips

SafetyGrip Anti-Slip Strips

A single component epoxy anti-slip floor and outside surface coating designed for areas of high use pedestrian traffic.

When applied to an aluminium backing SafetyGrip strips are the perfect answer to overcome the problem of slippery decks, steps & boardwalks etc. Providing a hardwearing, durable and safe walking surface.

Unlike other surface coatings, which rely on dry weather for application and curing, SafetyGrip strips are ready for use immediately after fixing.

Ideal for applications such as pedestrian ramps, steps, decks, changing room floors, wet stairways and walkways.

Available in Black, Grey or Yellow.

SafetyGrip Anti-Slip Strips

INCREASED SAFETY IN AREAS OF:

Decks, Steps, Ramps, Boardwalks & Stairs
